

T Levels

Technical courses with time in industry

16 to 19 | Level 3 | Two years

? What is a T Level?

A T Level is a two-year course for 16 to 19 year olds. It combines classroom learning with a long placement with an employer. One T Level is worth the same UCAS points as three A levels.

Industry placement

Every T Level includes an industry placement of at least 45 days with an employer, so you get real work experience.

Subjects

- Agriculture, environment and animal care
- Business and administration
- Construction, engineering and manufacturing
- Digital, creative and design
- Education and early years
- Health and science
- Legal, finance and accounting
- Sales, marketing and procurement

Entry requirements

Each college sets its own entry requirements, usually GCSEs including English and maths. Some colleges offer a preparation or foundation year if you need more time first. Ask the college.

After a T Level

- A job in that area
- A higher or degree apprenticeship
- University or higher education
